

CREATE A CLIMATE OF CHANGE

Climate change is dramatically altering our planet as we know it. The poorest in the Global South are least to blame, yet are hit the hardest - but we are all affected.

I, along with thousands of other Canadians, am making a commitment to reduce my carbon footprint by*:

- Making my home more energy-efficient and reducing my energy use.
- Carpooling, using public transport, walking, and bicycling whenever possible.
- Choosing local, organic, and fair trade food options whenever possible.
- Reducing waste by buying less, re-using, repairing, recycling, and composting.
- Other: _____

Dear Prime Minister,

I have made a commitment to take action on climate change. Now I am asking you to make a commitment for Canada and for the people of the Global South who are most affected by the negative impacts of climate change. I am asking you to commit to:

- 1.** Adopting a fair, ambitious, and legally-binding international agreement on climate change to ensure that the world's temperature rise does not exceed 2°C.
- 2.** Providing the resources necessary for the most vulnerable communities in the world to adapt to climate change.
- 3.** Transitioning Canada's fossil-fuel dependent economy towards one that is based on energy efficiency and renewable energy.
